COMMENTS (Number each comment to show from whom to whom. Draw a line across column after each comment.)

1.	for C/IAD	-	24	WR	Re HPSCI testimony of DCI for 13 July. Essentially, this is a follow-on and expansion of the testimony of the then DDO, John McMahon, before HPSCI Subcommittee on Oversight on 6 Feb 80. Copy of the unclassified version of that earlier testimony attached. I am meeting with HPSCI staffer Herb Romerstein (with OEA participation) and with
2.		/			the morning of 30 June to work out details. At this stage I believe what HPSCI wants is a circa 15-30 minute opening statement from the DCI, the tabling of other appropriate papers, and then the give and take of discussion. I believe that the questions will center on what objectionable things the Soviets are doing, but (given what happened in 1980) there also will be questions about what CIA and the Community are doing about the problem of Soviet Active Measures. Since Secretary Haig and the Department are also heavily involved in the diplomatic and public affairs side of this problem, the DCI might wish to have an appropriate State officer also available during the hearings. (Note that the FBI will be making their case the next day re Soviet Active Measures in the USA.)
3.	ADDO	/		✓	Attached is a proposed opening statement by the DCI and papers for him to table. We will be adding a few more papers on recent Soviet forgeries next week, but this will not effect the basic thrust of the presentation.
